To Whom it may concern,

I am writing to apply for the compositing position at Cloud10 studios. I am recent graduate at Gnomon School of VFX. I graduated March 23rd, 2025. I learned of the opportunity through your website.

Through my research, I noticed that Cloud10 is a woman owned and operated studio which offers a wide range of opportunities from 3D to Production. My knowledge of vast areas of the vfx pipeline as well as years of workin on set will make me a great addition to your team.

I have gained experience in not only compositing but 3D in general through my academic studies at Gnomon but also being a SFX makeup artist/production assistant.

I am excited and optimistic about this compositing position. With my design approach and my Bachelors of Fine Arts, I would make a unique contribution to Cloud10 Studios. Examples of my work can be seen online at [include link to portfolio/ website], and I can be reached at marvelise.art@gmail.com. I thank you in advance for your consideration, and I look forward to hearing from you.

Sincerely,

Marlise Wilson
